

JOB DESCRIPTION

JOB TITLE:	Project Development Officer	
ORGANISATION	Fife Historic Buildings Trust (FHBT)	
LOCATION:	KINGHORN TOWN HALL, KINGHORN, FIFE	SALARY: c. £30,000
FIXED TERM POST:	Fixed term post to 31 March 2023 – full time 36 hours per week	
RESPONSIBLE TO:	FHBT Manager	
RESPONSIBLE FOR:	Development and delivery of FHBT projects.	

Main Function

This is a new full-time fixed term post, funded by Historic Environment Scotland, to work with the FHBT team to **develop new historic environment regeneration projects in Fife, principally the restoration and re-use of historic buildings at risk.**

About FHBT

FHBT is a Building Preservation Trust, formed in 1997 primarily for the purpose of restoring and finding new uses for at risk historic buildings in Fife.

The Trust works closely with Fife Council and with partner organisations and local communities. It is a company limited by guarantee and has charitable status. **It has a strong track record in delivering heritage regeneration projects, helping to bring approx. £40m investment to Fife’s historic buildings since 1999.** Sensitive conservation of the historic environment is recognised as a powerful contributor to regeneration initiatives in Fife, **supporting social, economic and environmental renewal through restoring and bringing historic buildings back into use.**

FHBT currently manages Inverkeithing CARS/TH on behalf of Fife Council, including the planned refurbishment of Inverkeithing Town House to create an accessible community hub. We have recently **completed a hugely successful CARS/THI in Cupar, recognised in 2019 with a Scottish Award for Quality in Planning** by the Scottish Government. Both schemes are generously funded by the National Lottery Heritage Fund and by Historic Environment Scotland.

We also **project manage the restoration of buildings at risk** – providing new facilities for communities across Fife. E.g.

- FHBT is working closely with Fife Employment Access Trust following recent funding awards from National Lottery Heritage Fund and Historic Environment Scotland for the restoration of

Silverburn Flax Mill to create a visitor centre and community hub at the heart of FEAT's work to revitalise Silverburn Park, Leven.

- Work is about to start on site on the development of the **Fife Regional Climbing & Bouldering Centre in Lochgelly – an exciting new use for the former St Andrew's Church**. Funded by Fife Council and the Scottish Government, it will be managed on completion by social enterprise Rockgelly.

FHBT has also retained some of the buildings it has previously restored and **manages a small portfolio of re-purposed historic buildings, each contributing to their local economies and communities**: three high quality **historic holiday lets** (Kinghorn Town Hall, John McDouall Stuart View in Dysart, and Cupar Burgh Chambers); a small complex of five **workspace units for artists/craftspeople** (The Platform, Burntisland); and two **community rooms** (Kinghorn, West Wemyss).

Current Trust Team

FHBT Manager

Finance & Administration Officer

Project Officer (leads on Inverkeithing CARS/TH)

Inverkeithing CARS/TH Training & Development Officer

Project Development Officer

Holiday Letting & Marketing co-ordinator (part time self-employed)

Holiday Let Housekeepers and Gardener (part time self-employed)

The Trust is also assisted in its work by the contributions of volunteers and the active role played by the FHBT Board of Trustees. Find out more at www.fifehistoricbuildings.org.uk.

See organisation chart at end.

As a small organisation, the Trust relies on the good will and initiative of its staff – forming a small and dedicated team that works together to provide mutual support. As well as their core duties, all members of the team play a role in dealing with any issues that can arise at the Trust's properties. The job activities listed below are a guide to the core duties that this post will be asked to perform - other duties will always be agreed and appropriate training and / or support given.

The role of the Project Development Officer

FHBT's services are in demand and there are many opportunities to develop new projects that provide opportunities for engaging people and organisations across Fife with their heritage and with traditional building skills. **This new fixed term post brings additional capacity to work with partners at the earliest stage to develop projects to application or shovel ready stage. Its aim is to develop a pipeline of future projects – principally the restoration and re-use of historic buildings at risk. It will also bring new thinking to continually improve FHBT's approach to project management.**

Fife has a particularly rich and varied resource of historic buildings and areas with over 6000 listed buildings and 48 conservation areas, which is the largest concentration of protected historic environments in Scotland, outside Edinburgh. The importance of this historic environment has long been recognised, with successive Fife local authorities placing a high emphasis on its protection, conservation and enhancement. This reflects not only an awareness of the need to maintain this built heritage as a unique cultural asset specific to Fife, but also its role as a visitor attraction, under-

pinning tourism as an important element of the Fife economy. As well as the projects in development noted above, we are aware of other potential projects we are keen to explore further.

The post is based at the FHBT office in Kinghorn, but will involve significant time visiting sites and organisations across Fife. There is scope for some home working. Candidates should be aware that although this is an office based post, it requires activities such as visiting buildings (sometimes empty/derelict) and building sites/scaffold on a regular basis, at times ascending to roof level.

Job Activities

Potential Projects

Work with the FHBT team and potential project partners to:

1. Identify and appraise potential FHBT projects
2. Review options to identify sustainable future uses for historic buildings at risk
3. Work with project partners and design teams to develop potential projects
4. Help organisations consider organisational forms to deliver their projects
5. Work with local organisations to understand the costs involved, to develop funding strategies and to develop and submit grant applications
6. Share expertise, experience and lessons learned from existing/previous FHBT projects

Project Pipeline

Work with the FHBT team and potential project partners to:

1. Establish a project pipeline for FHBT - propose an approach to assessment, management and decision-making of FHBT's project pipeline
2. Develop innovative and more structured approaches to the management and assessment of FHBT projects through key stages in their development, in line with good external conservation practice
3. Develop a more structured approach to FHBT's fee structure for their role in each project
4. Develop approaches for responding to project enquiries from community organisations and others.
5. Research and bring forward suggestions for funding to support potential projects – inc funding for early stage project review / development.

Project Delivery

Take the lead in the management and monitoring of agreed FHBT projects:

1. Management of the whole life of a project from initial assessment through options appraisal and project development to contract, post contract and final completion.
2. Developing the conservation strategy for a project in line with the Trust's overall conservation strategy.
3. Developing funding strategies, consulting with funders, compiling funding applications and ensuring compliance with funders' requirements.
4. Liaising with FHBT Finance & Administration Officer on management, monitoring and reporting of grant claims.

5. Working with collaborating organisations ranging from Local Authorities to community groups, including public consultation exercises.
6. Procuring and managing consultant teams.
7. Managing meetings with consultants and other stakeholders.
8. Management, monitoring and reporting of building projects on site.
9. Representing FHBT in official meetings with statutory bodies, funders, potential end users, etc.
10. Reporting to FHBT Manager and FHBT Trustees and to collaborating organisations.
11. Publicising FHBT project work through local, national and digital media.

FHBT Administration

1. Dealing with telephone enquiries.
2. Contributing to the administration of the general office
3. Contributing to the administration and smooth operation of FHBT properties.
4. Attend Trust Executive, Board Meetings and AGM.
5. To comply with the Trust's Health & Safety at Work Procedures and any relevant legislation, and to ensure that safe systems of work are used at all times.
6. To comply with the Trust's approved governance policies and procedures.
7. Carry out any other duties and responsibilities as may be required by the FHBT Manager.

Person Specification

We need the successful candidate to hit the ground running, therefore we are looking for a minimum of three years' experience in managing or overseeing projects, with at least two of those being spent in the built heritage sector. You do not necessarily need to have formal training or qualifications in this area. You will need to demonstrate some or all of the skills and attributes listed below.
